Dear Sir:

In response to the examiner's restriction requirement of June 17, 2003, the applicants elect Group I, comprising claims 1 -8, with traverse.

First of all, the cathode of claim is specified to have been manufactured by a method according to claim 1. Therefore, it must have included the etching step set out in claim 1. If the etching step of claim 1 is omitted, the limitations of claim 9 are not met. Reconsideration of the requirement is therefore requested.

Examination of the application on its merits is awaited.

July 17, 2003

Respectfully submitted,

William M. Lee, Jr.
